Dear members, alumni, and friends,

Greetings from the East Grand Forks Education Foundation Board and myself. We hope this finds you doing well and ready to celebrate the summer sun. We have a lot to celebrate too! The 2022-2023 school year was an amazing year for the East Grand Forks Education Foundation! Together we have accomplished so much for our District's students and staff.

We are celebrating our growth by rebranding ourselves with a new logo. Futures rooted in excellence will grow strong and produce much fruit. After many years of small — yet consistent — growth, a tree will eventually evolve into something very substantial. Just like compound interest does to your money, the small amount of daily growth turns into something highly admirable and worthwhile. Our foundation's mission is dedicated to supporting and enhancing quality educational programming, projects, and activities for every student in our public school district and establishing and awarding post-secondary scholarships. Thank you to our generous members, alumni, and friends for your supportive gifts and for helping us grow generations of good fruit. We are better together!

We combined our spring and fall grant rounds into a single fall grant round. This in turn increased the number of grant applications we received and awarded. We have been pleased to see the fruition of the grants awarded as staff have been providing us with grant reports, photos, and videos of said projects. Check out our spotlight recipient, Hannah Driscoll on page 2, to see an example of our grants at work. It is wonderful to see the creativity the staff have in using these funds to provide opportunities, going above and beyond for our students.

We, the board, were able to celebrate our teachers and staff during National Teacher Appreciation Week this spring by providing Sandy's donuts to the entire staff at New Heights Elementary, South Point Elementary, Central Middle School, Senior High,

and the district office. To quote, Marilyn Hagerty, "There is something to be said about doughnuts!" We know we have done something a little special, when our actions get reported in Marilyn Hagerty's "Happenings" column in the Grand Forks Herald. We are honored she noticed and grateful for her love of everything community.

This spring we took on the role of what was previously held by the former EGF Scholarship Committee. This was a community volunteer committee that for years campaigned and awarded scholarships to deserving students. We felt that this role was too important to not have exist in our District and opted to take on this new role. I commend our board for accepting this role and doing their diligence in learning the process. We ran our first successful scholarship campaign this spring and were able to award over \$8000 in scholarships to the East Grand Forks Class of 2023 (see page 6 for a listing of donors and scholarship winners). We sincerely thank our members, alumni, community businesses, and friends for participating in this important campaign. We look forward to working with you again in raising funds for the incoming Class of 2024. Go Greenwave!

We are excited to introduce an added alumni news section to our newsletter (see page 5) and are hoping that alumni will continue to add news worthy of sharing with our school community. Our first submission is from the EGF Class of 1973 who will be celebrating their 50th class reunion this September. If you have alumni news to share, please email us at info@egfeduaitonfoundation.org.

In closing, no tree can survive and grow without nurturing and anchoring roots, so join us in continuing our mission in nurturing our students and our schools, making East Grand Forks Public Schools not just a great place to learn and grow, but the best place to learn and grown.

All my best,
Holly

SPOTLIGHT RECIPIENT

Hannah Driscoll

My name is Hannah Driscoll and I currently teach 7th and 8th-grade FACS (Family and Consumer Sciences) at Central Middle School, in EGF. I moved into this position 3 years ago after teaching 4th grade for 3 years at South Point Elementary. When I started in this new position, my classroom was incomplete. It needed some updating.

In the Fall of 2021, I was able to apply for a EGF Education Foundation grant in hopes to update my kitchen pots and pans, blenders, and cutting boards. Thankfully, they fully funded my project and I was able to purchase a brand new set of pots and pans, blenders, and a set of 3 cutting boards for all five individual kitchens. My students are now better able to participate in hands-on cooking labs that allow them to learn the basics of food and nutrition. We focus on the 5 main food groups, with a supporting cooking lab for each group. We cook anything from spaghetti and pancakes to smoothies and chocolate chip cookies. This fully funded project has enhanced the classroom experience for both myself and my students.

Then, in the Fall of 2022, I applied again and was awarded a grant that allowed me to purchase five hydroponic gardens for each kitchen. Hydroponic gardens allow plants to be grown indoors and be harvested year-round, even with our lovely Northern Minnesota weather. Each kitchen has its own garden that collectively grows several different types of lettuce and herbs. Students harvest the lettuce to taste-test the different varieties, and we use herbs like cilantro in our salsa lab. In the future, I would love to expand using the hydroponic gardens into potentially growing fresh produce for our lunch program.

This would provide experience for our students to try new fresh produce and also reap the benefits from the produce that they personally grew from seed.

Both of these projects have opened the doors to many new possibilities and have greatly supported my student's learning. As a teacher in the EGF School District, the EGF Education Foundation has genuinely supported both me and my students tremendously. Without their support, my students would not have had these opportunities.
