

Education Foundation Grant Rubric

Description of Request: _____

Name of Applicant _____

(All else being equal, new applicants will be prioritized over previous recipients)

Possible Points	Mission:	Audience:	Innovation:	Need:	Longevity:
4	This grant is exactly the type of request the foundation was designed to support. <ul style="list-style-type: none"> <input type="checkbox"/> STEM <input type="checkbox"/> Fine Arts <input type="checkbox"/> Libraries <input type="checkbox"/> Opportunities for new curriculum <input type="checkbox"/> Supports teaching and learning. <input type="checkbox"/> Other _____ 	Grant would support an entire school	This request demonstrates a high degree of originality and innovation. It provides something new or unique that is above and beyond normal classroom activities.	This grant would fund items/ activities beyond what the school district is expected to provide. (100% enrichment)	The item(s) will last indefinitely
3	This grant meets some of the qualifications of the foundation's mission.	Grant would support an entire grade level	This request demonstrates creative approaches to improve learning in the classroom. It supplements existing instructional activities in a novel or unusual manner.	This a request that the school district would be happy to fund, if there were unlimited funds, but it's beyond a "need". (Enrichment- based)	The item(s) will last 1-5 years
2	This grant loosely supports the qualifications of the foundation's mission.	Grant would support an entire class	This request is moderately innovative. It is tied to existing approaches, but has the potential to impact students in a new way.	This is a request that the district expects to be funded using annual budgets. However, because those budgets are finite, this request had to be prioritized below more immediate needs. (Need-based)	The item(s) will last 1 year only
1	This grant is outside the purview of the foundation's mission	Grant would support fewer than 20 students.	This request supports teaching and learning. However, it is not fundamentally distinctive from current classroom practices.	This is a basic need that the school district SHOULD be providing. The foundation cannot be a stop-gap to cover basic needs that are the responsibility of the district. (Need-based)	The item(s) may only be used once.
Points awarded					
Comments					

Does the application have the required signatures? Yes No

(Requests without the required signatures will not be considered)

Total Score _____

Special note: Due to the changing nature of technology and limited ability of the Foundation to support the technology needs of the entire district, requests for such items have a decreased likelihood of being funded. For guidance on how best to approach technology requests, contact your faculty mentor.
